

# Tanya Tucker, Dancing The Night Away

Standin' beside the ocean, lookin' across the water  
Everything is beautiful here but I still don't feel like I ought ta  
Things we wanted not so long ago well I've got 'em all now but I aint got you no more  
But I Remember the way you held me and all the sweet things we used say  
when we were two young lovers dancing the night away

I remember everything the way you wore your hair  
The looks your body told me seem to float right through the air  
I look so funny dancing but you loved me any how  
I wish I could find somebody to love me like that now  
But I remember the way you held me all the sweet things we used to say When we were two young  
Let me see you dance, let me see you dance, oh baby let me see you dance

Standin' beside the ocean throwing rocks out in the bay  
I should look for companionship but it just gets in my way  
Lights are a glittering all along the shore  
People dancin' there, I don't dance there any more  
But I remember the way you held me and all the Sweet thing we used say, when we were two young  
Let me see you dance, let me see you dance, oh baby let me see you dance
