

# Tanya Tucker, Love Me Like You Used To

In a cozy little restaurant for lovers  
It seems so out of place for you and me  
We used to play around under the covers  
But now it's just a place to watch T.V.

Chorus:

So love me like you used to when our love was brand new  
And darlin' when we're through you can love me again  
And hold me like you want to instead of like you have to  
Love me like you used to love me when you used to love me  
Baby we could use a long vacation  
But the trouble here is bound to tag along  
We used to be eachothers inspiration  
When it only took my touch to turn you on

Chorus 1X

Well we used to sit and talk about forever  
But now we hardly ever talk at all  
We walked a lot of tight ropes together  
We always cought eachother when we'd fall

Chorus 1X

Love me like you used to when you used to love me
