

# Tanya Tucker, New York City Song

I'm sittin' in this New York City hotel room alone  
Wishin' I was somewhere else or on my way back home  
Nashville Tennessee I know that's where I do belong  
Cause I don't know no New York City song

They know I'm from Dixie when I open up my mouth  
They don't treat the ladies here the way they do down south  
I thought I could make it here but I can't get along  
Cause I don't know no New York City song  
And Lord I'd like to tell you just how much I'd like to leave  
Cause in my mind that south bound song is tuggin' on my sleeve  
New York City ain't the place a country girl should be  
New York City ain't the place for me  
Today I walked a New York City avenue downtown  
I've never seen so many people hurryin' around  
And when I smile they look as if to say that smiling's wrong  
No I don't know no New York City song  
I'm sittin' in this New York City...  
Cause I don't know no New York City song
