

Tanya Tucker, Soul Song

Mhm mhm mhm

[guitar]

You're my soul song my everything-that-I-do song

My pick-me-up-when-I'm-blue song that's why I sing all the time

You're my soul song and that's why I call you my solid-gold song

Nothin' in the world could ever go wrong as long as you are mine

Never in the world have I seen anybody like you in all my time

You give me a feel good feelin' through and through and it's so fine

I'm up with the sun cause I don't wanna waste it

I love you so much I can almost taste it

I can sit still when I look up and see you comin' I start hummin' hmm

You're my soul song my keep-me-safe-from-all-harm song

My shelter-from-all-storm song that's why I sing all the time

You're my soul song my keep-me-warm-when-I'm-cold song

Nothin' in the world could ever go wrong as long as you are mine

You're my soul song...
