

# Tanya Tucker, Tell Me About It

(Bill LaBounty/Pat McLaughlin)  
They say that there's a hole in the atmosphere  
The things you think will last disappear  
When you were ready to say I do  
Somebody lowered the boom on you  
Now you need a sympathetic ear  
Tell me about it  
Tell me about teardrops in the dark  
Tell me about it  
Tell me about your broken heart  
You say you need someone to hold you tight  
(You) can't stand another lonely night  
Well come closer and  
Tell me about it  
Love isn't always true it hurts sometimes  
Your tears will tell on you girl, I'm not blind  
I know what you're goin' through  
I graduated from that school too  
If you need a shoulder cry on mine  
Tell me about it  
Tell me about teardrops in the dark  
Tell me about it  
Tell me about your broken heart  
You say you need someone to hold you tight  
(You) can't stand another lonely night  
Well come closer and  
Tell me about it  
You took a lesson in playin' a fool  
I graduated from that school too  
If you need a shoulder cry on mine  
Tell me about it  
Tell me about teardrops in the dark  
Tell me about it  
Tell me about your broken heart  
You say you need someone to hold you tight  
(You) can't stand another lonely night  
Well come closer and  
Tell me about it
