

# Tanya Tucker, You've Got Me To Hold On To

Don't it make life just a little more special knowin' you've got someone who cares  
You won't ever have to be lonely always have somebody there  
Don't it make everything a little bit easier knowin' you have someone like me  
A hand to take you to the light when it gets a little bit too dark to see  
That's when I like to stop and remind you  
You've got me to hold on to baby oh you've got me to hold on to

Yes and don't it make every chance worth taking even when you try and fail  
Don't it make all the pain worth aching look around and find somebody there  
Oh don't it make everything a little bit easier knowin' you have someone like me  
A hand to take you to the light when it gets a little bit too dark to see  
That's when I like to stop and remind you  
You've got me to hold on to baby oh you've got me to hold on to

I've got you I've got you

High and low happy or sad you know I'm gonna be right there  
Sharin' your smiles dryin' your eyes anytime and anywhere  
Cause you've got me to hold on to oh you've got me to hold on to baby  
Cause you've got me to hold on to honey
