Taproot, Take It

I gave it a chance I walked on glass, And what did it get me? Nothing, I opened up I showed you love,

Why couldn't I see this?

Coming,

I've made mistakes but you take the cake,

But it's bitter so take it!

The end of days,

A forceful change,

I've tried my best,

You were never there for me;

You broke my back and played me,

You won just by driving me crazy,

You know i'm gone but maybe,

There's still another breath of life out there for me;

I played the same, but you changed the game,

I'm not gonna take it!

Sitting,

I'll be the man, the better man,

The bitter is sweet when you taste when!

Standing;

A sacred life,

Has been denied,

I've tried my best,

You would never care for me;

I hear what you say,

I've seen my mistakes

And I know i'm okay

Cause you're driving me crazy
