

Tara Angell, When You Find Me

When you find me
I won't be waiting
I won't be waiting
When you find me

When you find me
I won't be lying to myself
I won't be lying to myself
When you find me

I am never gonna love you
I am never gonna love you again

In the springtime
When you come callin'
I won't be fallin'
In the springtime

In the springtime
When you come knockin'
I won't be rockin'
For you in the springtime

I am never gonna love you
I am never gonna love you again

When you find me
I won't be waiting
I won't be waiting for you
When you find me

I am never gonna love you
I am never gonna love you again

When you find me
I won't be waiting
I won't be waiting for you
When you find me
