

# Tarot, Before The Skies Come Down

The ropes want to feel your neck  
To embrace is good for dirt and wood  
Growing shadows with every light you stepped into  
They're coming for you  
Smothering the sun  
Life is done

Before the skies come down  
You try to live and see  
Before the skies come down  
You try some more than me

The stars have led me astray  
Beneath my feet the Earth just moved away  
Who changed the world, unhinged the time?  
Orbits in decay, crushed by the black sun  
Life was done

Before the skies come down  
You try to live and see  
Before the skies come down  
You try some more than me  
Before the skies come down  
You try to live and see  
Before the skies come down  
You try some more than me  
The skies come down

Whoa!  
The skies are coming down

Before the skies come down  
You try to live and see  
Before the skies come down  
You try some more than me

(Before)  
Before the skies come down  
(Before)  
Before the skies come down  
(Before)  
Before the skies come down  
(Before)  
Before the skies come down
