

TAT, Champagne, Cocaine and Strawberries

Ch. champagne cocaine and strawberries

First time you down it yeah you have a laugh

Second time you down it you'll be low on cash

Third time you fall, with the alcohol

Ch. champagne cocaine and strawberries

First time you smoke it, no you never regret it

Second time you sniff it, you'd be up to some mischief

Third time unlucky, cocaine

Here we go!

Ch. champagne cocaine and strawberries

Strawberry fields are forever appeal

Their soft red skins in your mind for real

Champagne cocaine and strawberries

You can sniff it and you can down it

And you can lick it and like it and light it

But you can't fight it oh boy, alcohol

You can loathe it, and (or) you can own it, and you can roll it

And inject in, and sniff it' and smoke it, cocaine

You can like them, and you can love them

And you can eat them, but you can't beat them

Na na na na na na strawberries

Lots of couple of drinks, my head starts to spin

A few months streets tipsin'

I'm losing real, my world slowly begins to slip

Two or couple o'lines, let's get high,

Too many more and I'm not keepin' score

No one secretly want more

One last time!
