

# Taxiride, Everywhere You Go

I could be a lover like that  
Just give me all the thing that you want now  
Tell me the best thing I can do

You say you got a lot of good reasons  
I know I told a lot of good lies now  
I could lose everything for you

So if you fall asleep and gotta wake up  
Say that it's so  
I'll be the one to tear you away from here

(Chorus:)  
Everywhere you go I'll come running  
Everywhere you go I will bring you round  
Everywhere you go I will come to you  
But I won't bring you down

Fly a little take a long drive  
We can be whatever we want now  
Won't be the same here without you

So if you've gotta leave a little later  
Stay here awhile  
I could take all these fears away from you

Chorus

All the tears you cry as the miles roll by  
I'll be reaching out to hold you  
There is nothing else that I won't do for you  
I could take all these fears away from you

Chorus

All the tears you cry as the miles roll by  
I'll be reaching out to hold you  
There is nothing else that I won't do for you

Everywhere you go  
I will come to you  
But

I won't bring you down
