

Taxiride, Skin

It could have been
The smell of your skin
An innocence I've never seen
Find myself reaching for you
I couldn't ask for anymore
Feels like I've met you once before
You've opened the door to a brand new me...

Some things are meant to be
Now you've shown me the way
Got me thinking that maybe
Something just keeps telling me
If I gave you my word
Some things are meant to be.

A message left on your machine
Now I'm waiting for the phone to ring
It's in the way you look at me
I'm trying so hard to believe that...

Some things are meant to be
Now you've shown me the way
Got me thinking that maybe
Something just keeps telling me
If I gave you my word
Some things are meant to be.

It could have been
The smell of your skin...

Some things are meant to be
Now you've shown me the way
Got me thinking that maybe
Something just keeps telling me
If I gave you my word

If I gave you my word
Some things are meant to be.
