

# Taylor Dayne, Up All Night

(Shelly Peiken, Steve Kimland, Kennan Keating)

Up all night  
With thoughts I can't escape from  
All the things you said  
It's a one-way street this dead-end situation  
Keeps running through my head  
Now the thrill's gone  
You're moving on  
You say you really love me  
But you must be going  
It's too bad  
It's to (damn) sad  
But not enough to make me want to cry  
Somewhere there's a man who needs me  
Not someone who runs and leaves me  
Up all night  
All those nasty games you're playin  
Make me sick and tired of stayin  
Up all night  
Now I can't calm down  
You got my senses reelin  
How could you say good-bye  
It's 4 a.m.  
I'm starin at the ceiling  
Can't seem to close my eyes  
But I'll be fine  
In time  
I'll find another lover, boy  
And you'll be sorry  
I'll be alright  
I'll sleep tight  
Till the break of dawn  
Chorus  
I can think of better things to do  
Countin stars  
Instead of counting on you  
There'll be someone in my life  
To hold me close  
When we're up all night  
But I'll be fine  
In time  
I'll find another lover, boy  
And you'll be sorry  
I'll be alright  
I'll sleep tight  
Till the break of dawn  
Chorus
