

Taylor Hawkins & The Coattail Riders, Get Up I Want To Get Down

Get up, I want to get down
Get up, I want to get down
Don't wanna be no cynic
Wanna get right in it
Don't wanna close my eyes
Don't need a big surprise

It never turn out quite exactly as you planned
You don't always have to try and take the upper hand
If you feel guilty that's OK because I feel guilty too

Get up, I want to get down
Get up, I want to get down
I don't want to burn ya
So buddy don't you burn me
I don't want to owe ya
So why don't you give it to me

You've been looking for the enemy for way too long
You can try and keep the balance but you're not that strong
You keep lookin' for a better way of gettin' vile

Get up, I want to get down
Get up, I want to get down
Get up, I want to get down
Get up, I want to get down

Get up, I want to get down
Get up, I want to get down

Get up, I want to get down

You've been looking for the enemy for way too long
You can try and keep the balance but you're not that strong
You keep lookin' for a better way of gettin' vile

Get up, I want to get down
Get up, I want to get down
Get up, I want to get down

Get up, I want to get down
Get up, I want to get down
Get up, I want to get down
Get up, I want to get down
