

# Taylor Hicks, Give Me Tonight

I'm rolling out  
On Friday night  
Got my good shoes on  
And i'm all right  
I got this crazy feeling  
Down in my bones

I walk in the room  
And the party's on  
Everybody dancing  
To blue eyed soul  
Then i saw you baby  
Standing alone

There was magic in the air  
I was trying not to stare  
But you caught me,  
You caught me cold  
Now there's nothing I can do

(but if you give me tonight) i'm gonna lay my burden down  
(what i got on my mind) baby, it's you  
(got this feeling inside) that you're feeling me too  
So I'm making my move  
(baby give me tonight)

Now here we are  
And the vibe is real  
We can make this happen  
Tell me how you feel  
You know my love is waiting, honey,  
Take the wheel

There was magic in the air  
You were trying not to stare  
But I caught you  
I caught you cold  
Now there's nothing you can do

(but if you give me tonight) i'm gonna lay my burden down  
(what i got on my mind) baby, it's you  
(got this feeling inside) that you're feeling it too  
So I'm making my move  
(baby give me tonight)

It was a flash  
Happened so fast  
You looked at me  
I knew

That's all it took  
To get me hooked  
And now i'm following through

There's just no way  
That I can stay  
Stay away from you  
Now I'm making my move

(but if you give me tonight) i'm gonna lay my burden down  
(what i got on my mind) baby, it's you  
(got this feeling inside) that you're feeling me too  
So I'm making my move  
I'm making my move

(but if you give me tonight) i'm gonna lay my burden down  
(what i got on my mind) baby, it's you  
(got this feeling inside) so I'm making my move  
Baby give me tonight
