

# Taylor Hicks, Places I've Been

I think of all the places I've been  
it always comes down to one thing  
The only place I want to be  
is with you

I think of all the faces I've seen  
and though they all mean something to me  
The only face I want to see  
belongs to you

All the places I've been meant nothing  
They were nowhere  
'cause you were not there

Everything I've been through  
Everything before you  
Was just time moving on  
with no meaning  
You're what was missing

I think of all the people I've known  
Some I've loved with all of my soul  
But the one that I have loved the most is you

I think of all the things that I've learned  
and after all the pages I've turned  
the only place I want to turn is to you

All the places I've been meant nothing  
They were nowhere  
'cause you were not there

Everything I've been through  
Everything before you  
was just time moving on with no meaning  
You're what was missing

I think of all the places I've been  
and it always comes down to one thing  
The only place I want to be is with you

And after everything that I've done  
And after everyone that I've loved  
The only thing I know is true  
The only place I want to be is with you  
The only place I want to be is with you  
The only place I want to be is with you
