

Taylor Swift, I Heart

Wish I had concentrated
They said love was complicated
But something I just fell into

And it was overrated
But just look what I created
I came out alive but I'm black and blue

Before you ask me if I'm alright
Think about what I had to do

Wake up and smell the break-up
Fix my heart put on my make-up
Another mess I didn't plan
And I'll bet, you thought you'd beat me
Wish you could only see
I've got an "I heart" written on the back of my hand

I'd be fine if you'd just walk by
But you had to talk about why
You were wrong and I was right

But I can't believe you made me
Sit at home, cry like a baby
Wait right by the phone every night

And now you ask about you and I
There's no you and I, remember what you put me through

I had to wake up and smell the break-up
Fix my heart put on my make-up
Another mess I didn't plan
And I'll bet, you thought you'd beat me
Wish you could only see
I've got an "I heart" written on the back of my hand

And when you're home all alone at night
You'll still wonder why you took everything I had, oh baby
I had a thought about you and I
There's no you and I
And I know someday you will...

Wake up and smell the break-up
realize that we won't make up
It didn't go the way you planned
And you'll know, you didn't beat me
When you look down and see
I've got an "I heart" written on the back of my hand

Written on the back of my hand
An "I heart" yeah
Written on the back of my hand
