

# Tayong, I'm Still Missing You

Even though I do, Still, miss you, just like the air that I breathe,  
I Need You,( I Need You) With Me, Im not gonna Lie ( I aint gonna lie, cause babygirl i)  
miss you, just like the air that I breathe,  
I Need You,( I Need You) With Me, Im not gonna Lie ( I aint gonna lie )  
I aint gonna lie to you, i swear babygirl my rhymes are true,  
i'm still liking you, even tho you dislike my crew,  
you think they got me doing things that i should'nt do,  
i know i should'nt have moved, but what could i do,  
and i know it could'nt be true that guys watch you cause they know ur my ex,  
and i know what them fellars like,  
and they know im the jelous type so them bros better get it right so don't let em get inside,  
know i'll be gettin hype, see i'm streetwise,  
i need you, you need i, together we shine, we getting better each time, and i still grind.  
Even though I do, (ey ey lets go!) Still, miss you, just like the air that I breathe,  
I Need You,( I Need You) With Me, Im not gonna Lie ( I aint gonna lie, cause babygirl i)  
miss you, just like the air that I breathe,  
I Need You,( I Need You) With Me, Im not gonna Lie ( I aint gonna lie )  
Lets take it back to the old days, on the phone till so late, now its 08,  
we both went our own ways, why? i wont say. im on a rise but i cant see i,  
without you by my side, so baby lets try, maybe you can ride,  
i'll take you to the sky, i'm a star, only seen at night,  
you dont wana be part of a obscene life, i got you right if you got me nice,  
dont watch these guys if they watch me twice,  
my face is bait so dont be surprised,  
i jus wanna know if u wanna be my wife but if you say no then i'll guess i'll survive  
Even though I do, Still, miss you, just like the air that I breathe,  
I Need You,( I Swear I Need You) With Me, Im not gonna Lie  
(Yeh, I aint gonna lie, cause babygirl i)  
I Can't (Yeh) imagine my life without you but i,( Real talks ) suppose i will survive (Jheez)
