

Team Sleep, Princeton Review

I liberate the cold inside
Camouflaged
But is it all the same guy
There's a bad scene
Worked up and sterilized
There's a black seed
Choked up and burning

Unfamiliiar
Unremorseful
That's the way you were
Don't want to bring it up again
That's the way you were
Oh well

You raise questions of me
You haunt sections of town
Be this or not
I know I don't understand
How this is appropriate

Be this or not
And no we don't understand
How bad at debate we are
