

Tears Of Mankind, Queen Of Night

What do you see in far? Overflown with lie - omission of the last years
What do you see in far? Covered with the scars, bleeding heart
What do you see in far? High flight - black wings of love
What do you see in far? Hands in blood - oblivion in death

What do you see when cry? On those who has died - a sweet pain
What do you see on fire? The flame of desire - it so is cold
What do you see in emptiness? It is more, than it is less - you in dead light
What do you see when want? A crown and a throne - my queen of night

What do you see in dark? Shadows and a dust - the forgotten mistakes
What do you see in dark? Infinite run from itself
What do you see in dark? My empty sight above the burnt truth
What do you see in dark? I am close and far, I your slave
