

# TEARs, Two Creatures

This country looks like one big car park  
The winters are so very long  
And everybody wonders where the light has gone

And Europe has its moving statelines  
But Africa has winter sun  
And you and me we're just two creatures on the run

And we'll go where the crowds don't stare  
And no one laughs at what we wear  
The phone might ring  
The rain might sting oh but we don't care

We'll fly over the endless ocean  
We're heading for the winter sun  
'Cause you and me we're just two creatures on the run

And Europe has its moving statelines  
But Africa has winter sunshine  
And you and me we're just two creatures on the run

And we'll go where the crowds don't stare  
And no one hates us for our hair  
The phone might ring  
The rain might sting oh but we don't care

We'll fly over the endless ocean  
We're heading for the winter sun  
'Cause you and me we're just two creatures on the run

America's our supermarket  
In India we'll take some stopping  
'Cause you and me we're just two creatures on the run

In Asia we can mend our breakdown  
'Cause you and me we must escape now  
And you and me we're just two creatures on the run  
You and me we're just two creatures on the run  
You and me we're just two creatures on the run  
You and me we're just two creatures on the run
