

Tech N9ne, I'll Pass

Yo, it's Mr. hm hm hm hm hm hm hm Tech N9ne

Yo, we're partners against substances baby, like this

(Tech N9ne) (Verse 1)

I was was hanging around my 5 7 block off Highland

Skies heaven hot and vibing

Off of T-Will, and a couple of fly brotherin off and rhymin

I spit the wickedest, then I scat with the quickeness

flip it the way i rip it's ridiculous man

I brought the pain

Then im out loud 'cause I dated baby like harry on the way

I met a chick named Mary, baby doll was very

persuasive with the way she spoke

She said some things I couldnt believe she nearly made me choke

She said she'd take me to a higher heightened life

I said id rather be grounded

She said that she'd complete me

But I said I was well rounded

She said I never had a friend like her

Take away the pain

Friend like her

Give me hella fame

What I said never baby doll was astounded

I already know yo game

to drive me to insane

Make me spend all my change

then try taken away my brain

baby girl had light green eyes and a hardcore frame

she said her name was Mary, but her last name's Jane, I'll pass

(Chorus)x2

Why these niggas tryin to step to me

All I wanna do is rock the M-I-C

I guess they wanna see me in misery

Never do it 'cause it's R.I.P.

(Tech N9ne) (Verse 2)

Me and skritch scratch outta Don Juan's puttin down hits (yes, yes)

Til a chick came in with a tight all white fit (yes, yes)

She said that once we kicked it with her we would never quit we go loco

We bow fast, What's yo name? she said Coco

She said she's currently staying down in Chouteau

And hides and various houses just to avoid the po po, Coco's a no no

This girl I'll have you spending mo doe

And never ever date a woman with a set of a horns and a pointed tail as a logo

Now Im trippin 'cause she said if I really wanna drop bombs

Meet her homie Rock Mon

He stays in Oakland

Raised in Roxens and he'll keep you hype

Im thinkin I will, Im thinkin I might,

shes thinkin yes, Im thinkin more like triple sike

I already know yo game

to drive me to insane

Make me spend all my chains

then try taken away my brain

Baby girl was a light light bright

And I couldn't explain

Why everybody called her Coco 'cause her last name's Cain, I'll pass

(Chorus)x2

Why these niggas tryin to step to me

All I wanna do is rock the M-I-C

I guess they wanna see me in misery

Never do it 'cause it's R.I.P.

(Tech N9ne) (Verse 3)

Can I ask you a question?

Have you ever had a homie who was high strung

There's a lot of negativity where I come from

Told the homie to never drink and smoke when drivin' my homie disobeyed, disobeyed

Yo, all I wanna do is get to the studio
Im bumpin it to the weirdest chicks they wantin Poppy Chulo
A block away I bumped into another
She said she wanted to take me on a date
And within the night, become my lover
She's lookin at me like a pirahna
Let loose with me in a suana
Her title was somethin crazy like ghuana hanna bonana
She said she'd flow like liquid
And wanted to go with me
But she told me to call a GHB, I'll pass baby
(Don Juan)
Hey yo, what's up this is Don Juan
Anybody ask you to do drugs, tell em I'll pass
(Chorus)x2
Why these niggas tryin to step to me
All I wanna do is rock the M-I-C
I guess they wanna see me in misery
Never do it 'cause it's R.I.P.
