Verse 1

I hear'em, whispering in corners speakin' dirty talk
On us bout how we too grown up that we unknowners and
My persona is rock and rollish your nigga told us every word
That you quoted, said I wouldn't be the one that sewed it but
(ha) we exploded
I'm that rap nigga that you heard with Tupac, Sole, Lynch & Bo,
Wake up show with King Tech and Sway, Yukmouth, Thicker Than Water,
Gang Related, Eminem, Roger Trout, Mc Ren, nigga Spice One and Nem.
Hit'em with a venom sit'em down kill'em when I spit,
When I get a bit of scrilla Tech is giving niggas shit,
Love who love us but the playa hatin' niggas better split
It'll never be another Teccanina when I quit
You better Neal when you hear a nigga that's real I feel
18 when I bust from the grill because (if you keep it young) your
Song is always sung so street life taught me to keep'em sprung
God sent to kill, lyrical scripts the miracle whipped you
Demons and haterz who tripped, listen I really feel,
My villain T-Will when he spit fuck them plus anybody
They go get and shit.

Chorus(Repeat 2x)
