

# Technotronic, Move It To The Rhythm

You've got to move it to the rhythm  
You've got to move it to the beat  
You've got to move it to the rhythm  
You've got to stomp your feet to the beat

Move it to the rhythm  
You've got to move it to the beat  
You've got to move it to the rhythm  
You've got to move your feet, stomp that beat

We oughta really get it on, get it on, get it on  
We gotta get it on  
We really got it goin' on, goin' on,  
We got it goin' on

Move your feet to the beat and keep on  
Too heater than sweet to sleep on  
So you go on and on, all night long  
'Till dawn, you can't get it wrong.  
You just move around like you really don't care,  
Hands in the air and keep'em there  
Side to side you just let 'em sway  
Through the day, let the music play  
Hear the rythm, move to the pace,  
Get to the bass and shake up the place  
It don't matter what you are doin'  
It's how you do it and how you flewin'  
So keep on goin' for a while,  
Keep 'em goin' into the style  
I took the hook that everybody done grinnin'  
Now look at your body, move to the rythm !

Move to the rhythm, groove with the flow  
You know how it goes, now what you got to show  
Pump it up like it ain't nothing  
Jump around to the sound we bring  
And you can't miss the count or lose the beat  
You do it all the time, you don't stop your feet  
Move it to the rhythm of the song  
Everybody party once along  
Get on the floor where the action is  
You can it down about your business  
When I'm old I hope to be sold  
The truth unfold and the stories told  
If you're willing to say no more  
Get down for shockin' n' rockin' the floor  
Move it to the rythm, groove with the flow  
You know what you got to show, now let's go !
