Ted Nugent, Knockin' At Your Door

Well, ever since I was 5 years old You've filled me with a burnin' need But you've acted oh, so damn cold Like you never even noticed me Well, they say that love always finds a way Well, if it takes forever, and it may I'm gonna...gonna...I'm gonna keep (chorus) Knockin' at your door Late in the midnight hour Knockin' at your door Ooh when there ain't nobody around There's nothin' in the whole wide world That I wouldn't do for you Even lay me down in the dirt Oh just to show my love is true Baby you can run but you can't hide But you know that someday I'm gonna make you mine I'm gonna knock, I'm gonna knock And you're gonna let me in! (chorus) Knockin' at your door 'Til ya come and let me in Knockin' at your door Lord knows I'm never gonna guit *Bridge* no! Baby you can run but you can't hide But you know that someday I'm gonna make you mine I'm gonna knock, Gotta keep knockin, And you're gonna notice me! (repeat chorus) let me in let me in I'm never gonna guit why don't you understand? I bet you got the whole thing planned... ---fade out---
