

Teddy Geiger, A Million Years

Caught up in whats in.
Caught up in the things that everyone wants.
Caught up in whats out.
Caught up in the things that you could do without.
Well what if I was one of them?
So I will say,

Chorus

If I live for a million years i would be Right there to catch your tears.
Will you get over it this time?
And is this the last time?

On this night we breathe air.
What makes it so different?
What makes you not care?
Well I wish that we could be the same.
And I wish that you could give up this game.
Don't wanna be one of them.
And so I will say,

Chorus

Well if I live for a million years.
I would be right there to catch your tears.
And will you get over it this time?
If this the last time?

Will you say goodbye before you leave?
Will you say goodnight?
Just one more time please.
And will you call my phone out of regret?
And will you love again?
With other than me.
Other than me.
Will you speak at me?
With other than me.
And will you remember me?
And will you remember me?
And will you remember me?

Chorus

If I live for a million years
I would be right there to catch your tears.
Will you get over it this time?
And is this the last time?
Is this the last time?
Is this last time my dear?
Is this the last time?
Is this last time my dear?
Is this the last time?
Is this the last time my dear?
Is it the last time?
I think its the last time for us.
