

Teddy Geiger, Air Dry

Well, I kiss the rain, I waited up
You're pouring dragons in my cup
Don't try it, I can't cope with it
We'll get over it, yeah I'm over it
I'm tired of night and I can't breathe
You blew me off so easily
It's different between you and me
And I'm over it, you'll get over it
Chorus
I'm not the jealous type that doesn't sleep at night
You got your karma, I know I got mine
And all of my tears will air dry with just a little time, Air dry.

Well, I heard you played behind my back
Was I a fool to not react
Lets go to tape and play it back
I was out of it, I was under it
Your little spells worked quietly
Your good-byes left me wondering
Now that I'm gone you contemplate
If you're over me, well you used to be

Chorus 2
I'm not the jealous type that doesn't sleep at night
You got your karma, I know I got mine
And all of my tears will air dry with just a little time
Only wanted it once I was over it
You go your way, I know I'll go mine
And all of my tears will air dry with just a little time

How was I supposed to know
You never told me baby what you want
I can't read your mind
You never bothered to look inside of mine
I used to wake up every morning
And all I could do was think of you
It was all a lie, it was all a lie

Chorus 2
