

Teddy Pendergrass, Latest Greatest Inspiration

I've Been so many places
Seen so many things
but none quite as lovely as you
More beautiful than the Mona Lisa
worth more than gold
that my eyes have the pleasure to behold

(chorus)
you're my latest
and my greatest
my latest, greatest inspiration

things never looked clearer
peace withing never felt nearer
my burden's gone it's turned into a song
tender as a baby's touch
I needed you oh so much
at last the glory so alive

(chorus)

I plan to give you all that I am
I'll be everything, everything you think I am
you made life a joy to live
and I am thankful yes I am Blessed
since to known you

I've been so many places seen so many things
but none quite as delectable as you
more beautiful than the Mona Lisa
worth more than gold that my eyes have the pleasure just to behold
You're my latest
tell you you're my greatest
my latest, my greatest inspiration
you inspire me
you inspire me
don't you know it
my latest my greatest inspiration
you just keep on lifting me up now
higher higher
you inspire me I want you to
keep on lifting me up
higher higher
I want you to keep on lifting me up
higher higher
alright
see you got me you got me doing things I've never done before
see you inspire me
don't you know I love you girl
you keep on lifting me higher higher
