

# Teen Idols, Let's Make Noise

Let's Make Noise

Let's make noise in the bathroom  
Make everyone wonder what's going on  
Let's make noise in the bathroom

Come on pretty baby now you won't regret  
Get ready, on you mark, get set  
Let's go down the hall and get real wet  
I'll show you a time that you won't forget

The only thing that's wasted here is our time  
These greeks aren't friends of yours, and they're no friends of mine  
So let's take off all our clothes, and leave them all behind

Let's make noise in the bathroom  
Make everyone wonder what's going on  
Let's make noise in the bathroom

The time is right for making romance  
'Cause the rest of these fools don't stand a chance  
They won't even start to take down their pants  
Come on with me and do the naked dance

The only thing that's wasted here is our time  
Everybody's passed out for drinking strawberry wine  
They Should have never bothered with our kind

Let's make noise in the bathroom  
Make everyone wonder what's going on  
Let's make noise in the bathroom
