

Teena Marie, I'm Still In Love

Oooooo, Oooooo yeah ah, Ooooooo, Oooooo yeah ah

Tell me baby, how long has it been
Here you come, and here I go again
I must admit you looking rather fly
You're a sight for sore eyes (sight for sore eyes)

Situation wasn't quite that cool
Seven years ago, we're both the fools
But I'm real enough to let you know
That I'm never gonna let you go

I'm lovin' you,
I'm still loving you, baby
I'm still in love
(Nobody's gonna take your place in my life)
No one else but you baby (I'm still in love)
I'm lovin' you,
I'm still lovin' you, honey
Yeah, Yeah, Yeah,
I'm feeling you, what you feeling tonight? Baby

What's that look upon your face my dear
It must be magic in the atmosphere
I'm gonna heat it up, the chemistry
Stir it up sugar free (stir it up, stir it up baby)

Sassy joking blazing everywhere, uh
My kristal's hummin honey let's go there
You got a sista feening baby please
I'm about to be your main squeeze

I'm lovin' you

Nobody's gonna take your place in my life

Still in love with you baby, I'm feeling you, (what you feeling tonight?)
What you feeling?
