

# Teena Marie, Parking Music... The Baby Maker

Baby slow down - park the car turn the key off  
There must be ten zillion stars out tonight  
I'm ready for love I've got real smooth intentions  
The lovers in me wants to hold you real tight  
I've been waiting, anticipating  
Cause your love sends me, baby you know that  
The lover in me wants to bring out the best that's in you  
Come on baby, come on baby, come on  
Let's make parking music - baby making music  
Music to make love by  
Music just for lover - underneath the covers  
Only you can satisfy - satisfy - you're so fly  
You're so fly - you're so fly - you're so fly  
Fly just relax let me ease all your tensions  
Ahh come baby - let me touch your special place  
I'll do all I can I got things on my mind  
I'm gonna love you like I never - you're so fine  
I've been holding so no more controlling  
Cause your love wrecks me - baby you know that  
The lover in you wants to bring out the best that's in me  
Come on baby, come on baby, come on  
Let's play parking music, baby making music  
Music to make love by  
Music just for lovers - underneath the covers  
Only you can satisfy - satisfy - you're so fly  
Whispering in your ear  
The sweetest things this side of heaven - oh my dear  
My only wish is to satisfy you - come on, come on  
I never could deny you, baby, baby, sugar  
I'm giving you, giving you -  
giving you something you can feel  
Baby making music - music to make love by  
Hearts so full of passion you know what I am asking  
Only you can satisfy
