Could you light me up on what I'm doing  
And waken up the sleeping words inside my head

The morning that surrounds you  
The feelings that have found you  
Can grow every world you'll ever need

If you think there's a better place to see  
Get your mind made up on me  
Got another thing to be?

Ooo ooo...

Ahhhh....  
Ahhhh....  
Ahhhh....  
Ahhhh....

When the morning fades too soon  
Is there life in this cartoon?  
Woke up in a place where I belong  
The endless fights  
The disco lights

If you think there's a better place to see  
Get your mind made up on me  
Got another thing to be?

Ooo ooo...

Ahhhh....  
Ahhhh....  
Ahhhh....  
Ahhhh....

When the DJ plays your tune  
There's a light inside your moon  
If the takes don't take you  
And the breaks don't brake you  
Get the train on time  
I've waited much too long

If you think there's a better place to see  
Get your mind made up on me  
Got another thing to be?

Ooo ooo...

If you think (ooo ooo)  
If you think (ooo ooo)  
If you think (ooo ooo)  
If you think (ooo ooo)
