

Teenage Fanclub, Every Step Is A Way Through

Think it's time you got out of bed and followed through
'Cause a working clock never stops to miss the change

On the front line,
You're in the sunshine

Every step is a way (every step is a way)
Every step is a way (every step is a way)
Every step is a way through

If you find you're walking on air just open a window
If you find someone who cares then lock the door

On the front line,
In the sunshine

Every step is a way (every step is a way)
Every step is a way (every step is a way)
Every step is a way through
