Teenage Fanclub, Every Step Is A Way Through

Think it's time you got out of bed and followed through 'Cause a working clock never stops to miss the change

On the front line, You're in the sunshine

Every step is a way (every step is a way) Every step is a way (every step is a way) Every step is a way through

If you find you're walking on air just open a window If you find someone who cares then lock the door

On the front line, In the sunshine

Every step is a way (every step is a way) Every step is a way (every step is a way) Every step is a way through
