

# Teenage Fanclub, I Can't Find My Way Home

I can't find my way home  
It's always there when I'm gone  
Stuck in time since I moved on

What I've got is what's here  
What you say is what I hear  
Far away life don't come near

Where I go, I go  
and I know where I go wrong  
What I know, I know  
and I know where I belong

My mind's made up and I know why  
Doubts cloud up my blue sky  
Seasons change and time goes by

What I've found has changed me  
Change is what you can't see  
Being home is what found me

Where I go, I go  
and I know where I go wrong  
What I know, I know  
and I know where I belong

Where I go, I go  
and I know where I go wrong  
What I know, I know  
and I know where I belong
