If I could ask you how you feel
Would you reply or produce a shield?

Such a long time
Been drinking this wine
That I don't know

And all my friends keep telling me
That you can't drink or get drunk for free

So I'll admit
While I'm still fit
Of my love

That wine was the best girl I ever had
That wine was the best girl I never had

I can't deny the feeling
Fizzin' inside my head
All my senses wash away these booze that I've been fed

And if I could ask you how you feel
Would you reply or produce a shield?

Out on the street
Dead on my feet
Oh my love

That wine was the best girl I ever had
That wine was the best girl I never had
