

# Teenage Fanclub, Winter

The summer was out of sight  
We couldn't sleep at night  
Shadows were closing in  
Back in the dark again  
Basement we didn't own  
Cut off the telephone  
Ceiling was falling down  
Winter was underground

There are worlds  
We can find  
A hidden place  
Is in our mind

Place where the water falls  
Nobody ever calls  
Sky is forever clear  
Road never made it here  
Forests are deep and green  
Like nothing we've ever seen  
Heavens revolving sin  
Seasons change everything

There are worlds  
We can find  
A hidden place  
Is in our mind

There are worlds  
We can find  
A hidden place  
Is in our mind  
There are worlds  
We can find  
A hidden place  
Is in our mind
