

# Teenage Fanclub, Your Love Is The Place Where

Your sadness don't lie  
Your feelings can't hide  
You always know why  
But your reasons are sly  
You never deny  
What you feel inside  
I  
I Disappear when you're not here  
In my life

I can't slip away when I see your face  
I lose my confusion  
Your Love Is The Place Where I Come From  
When I'm on my own I'm lost in space  
My freedoms a delusion  
Your Love Is The Place Where I Come From

My sadness don't lie  
My feelings can't hide  
I Just can't deny  
What I feel inside
