

Tegan & Sara, Underwater

Underwater I wrote drowning
I use to be such good good swimmer
But for now my head is in the clouds
I'm a silly love song
A twisted elbow crush song
I would go to jail with only boys
Just to prove I was as tough as you
And when I get out for good behavior
I'll be writing love songs
Silly banging knee songs
I'm a car crash
But I have to get up
And every morning it's a cleanup
All I need is time, time to love you
The forecast is grey
But we're staying inside
You must live close
I've seen you drive by
I left signs on the lawn
Where have they gone?
Did you take them to tease me
To follow or lead me?
You're a silly love song
A verse chorus and such
Some silly love song
A verse chorus and such
I'm a car crash
But I have to get up
And every morning it's a cleanup
All I need is time, time to love you
All I need is time, all I need is time
All I need is time, time to love you
All I need is time, all I need is time
All I need is time, time to love you
All I need is time, time to love you
Time to love you
