

Tegan & Sara, We Didn't Do It

We didn't do it for the money, I don't know why
We didn't do it for the money, I don't care why
You'll go down down down get in my car it's too full
We didn't do it to be happy, so i can whine
You'll go down down down on the outside
Will i grow this out
You think I got my way
We didn't do it for the money, for the last time
You think I got my way, you think I got my way
Get in my car
