

# Tegan & Sara, You Went Away

You went away  
Cos you said that you can't stand me  
So I went away  
I was sure that you can't stand me  
Well I don't think we have to be like this forever  
Is there more to life than love and being together?  
You went away  
Cos you said you couldn't love me  
And I went away  
Cos all I do is love you  
Well I don't think we have to be like this forever  
There's more to life than love and being together  
When my loud guitar comes in  
When my thumpin' drums come through  
When my loud guitar comes in  
When my thumpin' drums come through  
My loud guitar comes in  
My thumpin' drums come through  
Well I don't think we have to be like this forever  
There's more to life than love and being together  
There's more to life than love and being together  
Is there more to life than love and being together?  
I went away
