

Tegan & Sara, You Wouldn't Like Me

There's a war inside of me
Do I cause new heartbreak to write a new broken song
Do I push it down or let it run me right into the ground
I feel like I wouldn't like me if I met me
Well I can't stop talking for fear of listening to unwelcome sound
And you haven't called me in weeks and honestly it's bringing me down
I feel like I wouldn't like me if I met me
I feel like you wouldn't like me if you met me
And don't you worry there's still time
There's nothing to live for when I'm sleeping alone
And I wash the windows outside in hopes that the glare will bring you around
Sunshine is days away I won't be saved I know all the words
I can't say that I'll love you forever
I won't say that I'll love you forever
