

# Teitur, Lets Go Dancing

Our minds run in circles  
Racing around the restaurant  
They are searching for what more to say  
To say what we really want

Lets leave it like it is  
And stop staring at these walls  
Lets not go headlong to that distance  
Where you can't come back at all

Lets go dancing  
Waltz around the rumor mill  
In your faded dress with daphodills  
Lets go dancing,

Let time stand still

Once your name was but a whisper  
A simple wish upon that tongue  
And staring at your shadow is like staring at the sun  
And in this dark dark hour, you still illuminate a room.  
Oh God give the power, we got to keep ourselves in tune

Lets go dancing,  
Waltz around the rumor mill  
In your faded dress with daphodills  
Lets go dancing,  
Let time stand still
