

Television Personalities, Love Is Better Than War

There's one thing that makes you feel so good
But I know that love can be misunderstood
But love is so magical and there's one thing for sure
I know that love is better than war

Love can take you to the highest high
Love is something you just can't deny
Love is so magical and there's one thing for sure
I know that love is better than war

Love is something we all feel inside
Love is everywhere it's yours and mine
Love is so magical and there's one thing for sure
I know that love is better than war

I know sometimes that love can be absurd
I know sometimes that I am lost for words
But love is so magical and there's one thing for sure
I know that love is better than war
