

Television Personalities, Reaching For The Stars

No, don't go back, don't return,
No one knows that you're here, you know you're safe
Safe with me, so rest your head
No one knows that you're here.

Try, try and reach for the stars
Learn to live with the scars that only time can heal
Try, try and reach for the stars
Learn to live with the scars that only time can heal

But if we give a little more
The chances are you will find that you get more in return
You're safe with me so don't go back
Cause no one knows that you're here

Try, try and reach for the stars
Learn to live with the scars that only time can heal
Try, try and reach for the stars
Learn to live with the scars that only time can heal

No one knows you're here
Your secret's safe with me
Secret's safe with me

And then you'll realize, what it was
You wanted anyway so don't go back
You're safe with me, no don't return
Just rest your head

Try, try and reach for the stars
Learn to live with the scars that only time can heal
Try, try and reach for the stars
Learn to live with the scars that only time can heal

No one knows you're here
Your secret's safe with me
Secret's safe with me
