

Television Personalities, Younger Than You Know

Let's see what the new day brings
Maybe I will learn something
I wish I had the nerve to be like you
Do half the things you say and do
You're looking younger now
Younger than the newest star that shines up in the sky
Younger than the newest dream
Baby dreamt last night

People think that I'm angel
Pleased to have me at their table
But no one came when I was sectioned
And in the mirror no reflection
You're looking younger now
You're younger than you know
