

Temperance, Trust No One but You

You came here because
Of your dreams and what you can
Do with them, says the figure

Chasing Viktor, finding a new way to cross the path
Is this the truth?

How many times have you found yourself
With something before your eyes
That you've seen only inside your dreams?
That's not reality!
How many times that thing was back
Right after you woke up?
How many times did they tell you:
Trust no one but you

These are dark times
Don't believe in what you feel
And see in front of you

"My power stops here"
"I can't see what he's looking for"
It's inside that doll

How many times have you found yourself
With something before your eyes
That you've seen only inside your dreams?
That's not reality!
How many times that thing was back
Right after you woke up?
How many times did they tell you:
Trust no one but you

How many times have you found yourself
With something before your eyes
That you've seen only inside your dreams?
That's not reality!
How many times that thing was back
Right after you woke up?
How many times did they tell you:
Trust no one but you

How many times have you found yourself
With something before your eyes
That you've seen only inside your dreams?
That's not reality!
How many times that thing was back
Right after you woke up?
How many times did they tell you:
Trust no one but you
