

Templo Diez, Song VI

Is it so that the morning rain
Has just soaked you down, and left you insane

There'll be more days to learn to get through
Today is spring, the air is so blue
Wind on your skin, makes you feel new,
Today is spring, the air is so blue
Just catch it while you can

Is it so that the girl who came
Here yesterday won't see you again
I bet she laughed when you burst in tears,
See, noone knows you more than I did

There'll be more years to learn to get through
Today is spring, the air is so blue
Sun on your skin, makes you feel new,
Today is spring, the air is so blue
Just catch it while you can

Is it so that noone around
Heard you when the blade ran into your arm
There's just 1 life to learn to get through,
Today is Spring, the air is so blue
Let's talk and drink, get out of your room
Today is Spring, the air is so new

Just catch it while you can
Just catch it while you can
Just catch it while you can
