

Templo Diez, Sparkle

Park the car, look ahead
Light a match, catch your breath
Dawn's above us, it'll wait
No one loved us, no one cared
Just park the car

Get a life, take a stand,
Oh it worked, for a while
Oh I wish you could be heard
Oh I wish you could be heard

Close to me, lay your head
Let me talk, lift you up, if you like

Watch the lights, how they raise
Turn the clocks, twenty blades

Look at you, look at them
Think of us, how we're spent
There's a way, right ahead,
Just one way, right ahead
Spark a light, spark a light, spark a light
