

# Ten Foot Pole, Happy Daze

Wake up  
Hoping for the showers that we need  
Waves crash  
Warriors in our mind are finally free  
Laughter echoed by seagulls in the air  
High on summer and all the carefree times we share

(chorus)  
Memories will help us as we go our seperate ways  
We will always be connected by thoughts of these happy days

Nightfall  
Make a wish as the stars begin  
Comfort  
Feel the cool wind breathe against our skin  
Singing our favorite songs with beers in hand  
Life seems perfect  
Walking at midnight on the sand

(repeat chorus)

Wish every day could be like this ( x 3)

(repeat chorus)

These days are yours and mine  
They're our happy days  
( x 4)
